«FIRST» «LAST»

Dear «FIRST»,

Congratulations! Because of your academic performance and enrollment in the Digital Gaming & Interactive Media program, you have qualified for participation in our Early Action Plan. The Early Action Plan allows you to declare your interest in attending our Bachelor of Applied Science in Digital Gaming & Interactive Media BAS program and obligates LWTech to reserve a spot for you so long as you meet the conditions below.

To join the Early Action Plan, you must:

- Return the Early Action Plan Acceptance form to the Enrollment Services Office by **December 28, 2023**. We will send you a letter confirming your reserved spot in the BASDIGM.
- Maintain a cumulative GPA of 2.0
- Remain in good standing as a student (no student conduct violations)

To be fully admitted to the Bachelor program, you must:

- Complete your AAS and Admission Criteria specified in the Catalog by the Spring quarter of the year you plan to apply for the BAS
- Submit a completed BAS application for admission by the priority deadline in the Spring

In your last quarter of enrollment in the Digital Gaming & Interactive Media program, our admission staff will work with you to complete the final paperwork required for admission to the BAS program

This commitment is not binding on your part, so if your circumstances change, you only need to notify the college and end your participation. Students supported by any of the following programs should contact their advisor **prior** to submitting the Early Action Plan Acceptance Form: Opportunity Grant, WorkFirst, Worker Retraining, BFET, or TRIO.

Yours,

Todd Bagaason
Professor &
BAS Faculty Director

Mike Potter
Dean of Instruction
